

2023 TECHNICAL UNIVERSITY

HOSTED BY:

November 2 & 3, 2023

LEARN FROM THE EXPERTS

Understanding SMACNA's Technical Standards and Proper Applications

This intensive 2-day program will enhance your technical background and provide you with the ability to deliver a well-designed, constructed and cost-effective project.

The program will focus on key SMACNA standards in a learning environment that will enable participants to investigate in-depth issues and problems facing the sheet metal industry and how the standards can be applied to effectively address these issues. The sessions will include presentations by SMACNA's technical staff on the various SMACNA standards and manuals, discussions of construction alternatives to resolve project related issues, plus hands-on projects to challenge assumptions.

Who Should Attend?

Project Managers, Estimators, Shop Production Supervisors, Superintendents, and Field Leaders

Tuition: \$200 per participant includes:

- Breakfast and lunch provided both days
- A complete set of SMACNA technical standards
- All related instructional materials
